

## Student applications – Introduction to Industry

1. Student applications for the Introduction to Industry programme are to be completed by their parent/guardian or teacher.
2. Navigate to <https://www.gfgfoundation.org.au/student-programme/> and press the “Apply Now” button or scan this QR code.

3. You will now be faced with a login screen. First-time users need to press the underlined, hyperlinked text “Create an account now”

A screenshot of a web form titled "Sign in". It contains two input fields: "Email \*" and "Password \*". Below the password field is a link that says "Forgot your password?". At the bottom of the form is a blue button labeled "Sign in". Below the button, there is a link that says "Don't have an account? Create an account now". The text "Create an account now" is underlined and circled in red.

4. Once you have created your account, you will be prompted to verify both your email address and mobile phone number.
5. Read and agree to the privacy and consent notice.
6. Once you have identified yourself as either a parent/guardian or teacher, the **Applicant Information** screen is asking for your details, not the details of the student.
7. Complete the remainder of the form and once submitted, ensure that you have received an email confirming it's submission.
8. If you are applying on behalf of more than one student, you can just log back into the account you created. The **Applicant Information** will remain prefilled, and you will just need to input the details of the next student.
